DRESS CODE: DOES YOUR LOOK HELP OR HINDER YOUR FIRM?

The pandemic shifted the perception for many of what is acceptable office attire, yet how one dresses instantly signals to a potential client or business partner the level of confidence and capability they can expect from your firm.

Bring your employees together for a 90-minute style seminar focusing on:

- The importance of image and dress code.
 - Easy steps to put together an outfit and style a look.
 - 10 tips to flatter all body types.
 - How to curate and manage a closet with ease.
 - Feel good and look great with minimal effort!
-

Seminar may conclude with option for participants to get styled in the cabi women's design collection.

Do your employees dress to represent your firm well?

Do your employees understand the value their appearance brings to your firm, and does that first impression put clients at ease?

Do your employees dress to earn business and referrals for the firm?

Do your employees dress for their own success?
